

Name:     Matt Schreiber     Question#:     1    

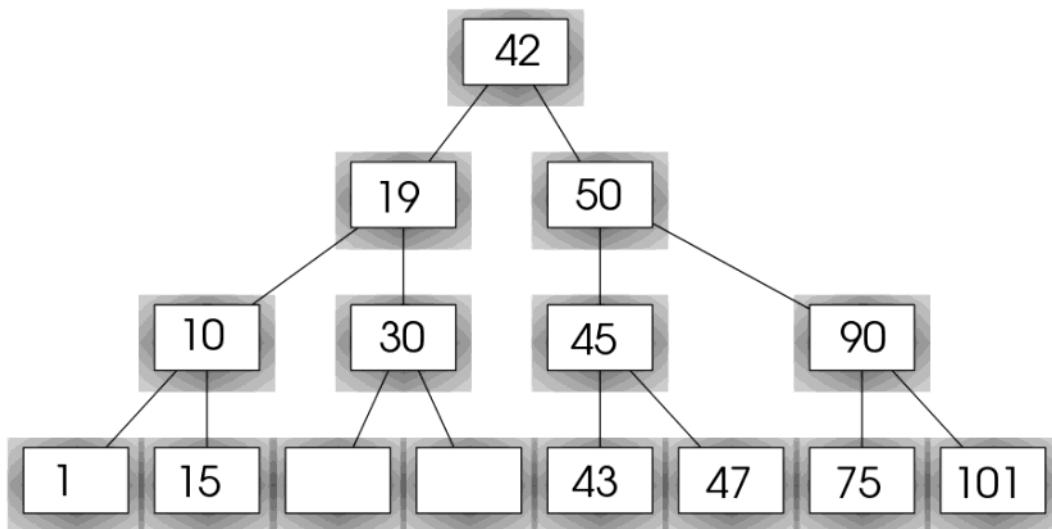

- 2) There are several ways to do this; what they all have in common is that (1) 4 must be the first element inserted, (2) 2 must be inserted before 1 and 3, and (3) 6 must be inserted before 5 and 7. Here is an example ordering: 4, 2, 1, 3, 6, 5, 7.
